

MARCIN PYTLIK

SQL Server Architect | Database Engineer | Microsoft
Certified Trainer

SQL Server solutions architect, consultant, trainer and lecturer with
experience in business-critical projects.

Milewo / Sochocin, Poland

+48 785 889 888

pracowniait.com

SQL Server and data platform

SQL Server architecture, administration, migrations, optimization, T-SQL, SQL Agent, SSIS, backup/restore, HA/DR, SQL Server clusters.

Diagnostics and performance

Analysis of complex issues, query tuning, instance and database configuration analysis, maintenance of production environments.

Applications and integrations

C#, ASP.NET Core, Entity Framework, PowerShell, automation, application integrations, ETL processes and reporting solutions.

Microsoft 365 / SharePoint

SharePoint Server/Online, Microsoft Teams, Power Automate, Exchange Online, migrations and Microsoft 365 deployments.

PROFESSIONAL PROFILE

SQL Server architect and consultant with over 20 years of experience in designing, administering, migrating, optimizing and maintaining Microsoft-based environments. I specialize in SQL Server, high availability, performance diagnostics, SSIS, migrations and integrating database solutions with applications and the Microsoft 365 platform. I combine engineering experience with training practice as a Microsoft Certified Trainer, academic lecturer and conference speaker. I work both at the architecture level and in hands-on diagnostics of production issues.

SELECTED ACHIEVEMENTS

- Designing and consulting SQL Server architecture for production environments, including migrations, modernization and performance issue analysis.
- Long-standing training experience as a Microsoft Certified Trainer — delivering training in SQL Server, SharePoint, Microsoft 365, programming and administration.
- Delivery of high availability projects: SQL Server clusters, NLB environments, IIS, Windows Application Fabric, backup and storage solutions.
- Speaker at industry events, including Microsoft Security Summit & Developer Days, ShareCon365, Microsoft Data Summit and Warsaw IT Days.
- Author of the book “Office 365 w małej organizacji”, published by Helion.

PROFESSIONAL EXPERIENCE

mBank — SQL Architect | 2025 – present

- Designing SQL Server-based solutions and participating in database environment architecture analysis.
- Technical consulting, analysis of complex issues and recommendations for changes in production environments.

I consent to the processing of my personal data for recruitment purposes in accordance with applicable data protection regulations.

- Supporting decisions related to configuration, migrations, security and maintenance of the SQL Server platform.

Unum — SQL Developer and Management | 2021 – 2025

- Development and maintenance of SSIS packages and SQL Server-based solutions.
- Database consulting: optimization, installations, migrations and infrastructure modernization.
- Analysis of existing environments, issue identification and preparation of technical recommendations.

National Labour Inspectorate — SQL Server consulting | project-based

- Individual training and consulting related to SQL Server migration planning.
- Support in planning modernization paths for database environments.

Microsoft Certified Trainer | 2004 – present

- Delivery of technical training in Microsoft technologies, especially SQL Server, SharePoint, Microsoft 365 and programming.
- Preparation of original training materials, labs and deployment scenarios.

Warsaw University of Life Sciences / WSB University — Lecturer | 2010 – 2016 / 2018 – 2022

- Teaching software engineering, data warehousing, SQL Server database administration and cloud services security.

7 Dots / Polkomtel / ITEXPERT / KRM Poland / own consulting practice | earlier experience

- Implementation and development of Microsoft solutions: SQL Server, SharePoint Server/Online, Microsoft 365, Windows Azure, IIS and .NET applications.
- Administration of SharePoint and SQL Server environments, migrations, upgrades, integrations and development of applications supporting business processes.
- High availability and infrastructure projects: SQL Server Cluster, NLB, Windows Server, backup, storage and reporting environments.

SELECTED PROJECTS AND DELIVERIES

SQL Server / HA / infrastructure

- Installation and configuration of SQL Server clusters for clients in the financial and corporate sectors.
- Administration and implementation of transactional replication in SQL Server environments.
- Projects involving backup systems, disaster recovery environments and storage platforms.

SharePoint / Microsoft 365

- SharePoint migrations: 2007 → 2013, 2016 → 2019, and migrations between Active Directory domains.
- Updates and configuration repairs of SharePoint 2013/2016 farms.
- Office 365 / Microsoft 365 deployments: tenant setup, user accounts, Exchange Online, SharePoint Online, Teams and training.

Power Platform and business processes

- Implementation of business processes in Power Automate using Microsoft Forms and SharePoint Online.
- Alerts, file processing and automation of data flows.

Education and training

- Original training courses for commercial and public-sector organizations.
- Microsoft Teams and Microsoft 365 deployments in schools and smaller organizations.

EDUCATION

Warsaw School of Information Technology — Master of Engineering | November 2016

- Thesis: “Concept of a knowledge base supporting information system design processes in a selected technological environment”.

Warsaw School of Information Technology — Engineer degree | June 2011

- Thesis: “Management system design for a foreign language centre and partial implementation based on Windows AppFabric and Microsoft SharePoint 2010 Server”.

Post-secondary vocational studies — Programming | June 1994

- Thesis: “Runtime error handling in Clipper”.

CERTIFICATIONS, PUBLICATIONS AND SPEAKING

- Microsoft Certified Trainer — active MCT status.
- Microsoft certifications, including Azure Administrator Associate, Azure Data Engineer Associate, Azure Fundamentals, MCSE Data Management and Analytics, MCSA SQL 2016 Database Administration, and historical Microsoft SQL Server and .NET certifications.
- Author of the book “Office 365 w małej organizacji”, Helion.
- Speaker: ShareCon365 2016, Microsoft Data Summit, Warsaw IT Days, Microsoft Security Summit & Developer Days 2007.

TECHNOLOGIES

SQL Server, T-SQL, SSIS, SQL Agent, backup/restore, SQL Server clusters, Windows Server, Active Directory, IIS, PowerShell, C#, ASP.NET Core, ASP.NET MVC, Entity Framework, Markdown, TypeScript, SharePoint Server, SharePoint Online, Microsoft Teams, Microsoft 365, Power Automate, Git, Azure DevOps, Visual Studio Code, Visual Studio.

ADDITIONAL INFORMATION

- Knowledge of SCRUM and Function Point methodologies.
- Completed training in software development team management.
- Interests: mountains, skiing, skydiving, aviation.
